My name is Tytiana, and I'm a licensed Advanced Nail Technician and the face behind Fancy Tips By Tyti. I have been pursuing my passion for nails for almost 4 years now. I specialize in steam pedicures, which have many benefits, including helping to circulate blood flow to the heart, removing toxins, and opening your pores to allow the products to penetrate the skin better for a smoother outcome.

I believe my creative mindset and attention to detail help me to express myself through my work, allowing me to bring out your personality through your nails. I look forward to providing you with the elevated nail experience you deserve! Thank you for booking with Fancy Tips!
