I entered the hair industry in 1987. I am passionate about making people look and feel good. I service my clients with professional products including Design Essentials, Mizzani and Affirm . My healthy hair services include relaxers, men and women haircuts, color, updo's, some natural styles, commercial hair extensions, and design essential smoothing system.

I frequently attend continuing education classes and presentations which are very important in keeping up with the latest hair trends and techniques. I have received several certificates from some of the top educators in the salon industry.

I served as a member of the Silky Straight styling team and also a member of Professional Hair Designers of Houston.

Together we can achieve results that will leave you styling and smiling. Come and get The Works!!!
