I am very happy to say, "Thank God" for allowing me to experience 30 plus years in the beauty industry. I have attended many professional classes, seminars and workshops throughout my career. I have learned product knowledge that has helped me to benefit from existing and new products. Some of the hair products I currently have chosen to use are: Nairobi, Design Essentials, and Kera Care. These products provide moisturization, pliability, and sheen to the hair.

The services I offer are as follows: straighten with the hot comb, relaxers, flat iron, blow dry style, roller sets, weave, two strand twist, cuts, color and up-do styles. My goal is to maintain healthy hair as well as happy clients!

I look forward to seeing you soon.
