I've been in the industry since 1990, and I love what I do.

I hope by viewing this web page it will convince you.

Although I specialize in short hair, long hair is no task.

I do my best to get you in and out and I'm known to be kinda fast.

Knowing the difference between a cut and trim makes precision cuts a cinch.

Demi-Semi-Highlights, clear shine or maybe even a rinse.

Keracare, Matrix, Visions, Mizani, Affirm and Sebastian.

These are the products I use to keep your hair lasting.

If you like it long and flowing, healthiness is the way to go.

Come in for a free consultation so then you can let me know.

Working with your own hair is what I'd like to do.

But if you prefer extensions, it's all up to you.

For me I love a challenge, I just hope you are ready,

to explore a whole new look that you definitely will be getting.
